## BALL CONTROL

### 1. Solo Passing (<https://youtu.be/XqHKbjP5mRI>)

Get into passing position and pass the ball straight up in the air to yourself. Keep the ball from hitting the ground. To work on maintaining control, try to keep your feet stationary. Try to pass the ball over 20 times without having to move.

### 2. Solo Setting (<https://youtu.be/-Lz6h3sqUj4>)

To help start with working on control of your set, try setting the ball while lying on your back. Make sure to have your knees bent. Have your hand 6 to 8 inches above your face, with your hands on the ball in the proper setting position. Your thumb and forefingers should form a triangular window. Push up through the ball. Try to set the ball over 20 times without having to move.

**EXTRA CHALLENGE!** Only try this if you are comfortable and confident.

**Pass-Set-Pass:** While standing, alternate between passing and setting. This will help keep control of the volleyball and allow you to practice on quick movement and footwork.

### HITTING

1. Spike Attack (<https://youtu.be/EXwruyLHIs>)
  - The 3 Step Approach
    - The order of steps are...**left-right-left**
2. **DRILL TIME:** Wall Traps (<https://youtu.be/dScC-BAYBnl>)

### BLOCKING

1. Position for Blocking

While the ball is on the other side of the net, you should be in a ready position to block with your arms up, with your elbows out in front of you and your palms facing the net about eye level. You should be ready to jump and block the ball at any second because the ball can come over unexpectedly.
2. Stationary Arms

It's also important to not swing your arms towards the net. If you swing your arms, the timing of the block may be off and you will likely miss the ball. Make sure that when you jump you spread your fingers out and jump with strong hands.

  - **DRILL TIME:** Wall Blocking (<https://youtu.be/AOrURpHK05A>)
    - This drill can be done inside or outside.
